## Tasting Results

Last updated: March 7, 2025

In the name of Science, I have tasted about 7,200 beers, ciders, etc. since beginning this project in December 2012. This report lists all results to date.

The most recent version of this report can always be found at [bankbryan.com/beer](http://bankbryan.com/beer).

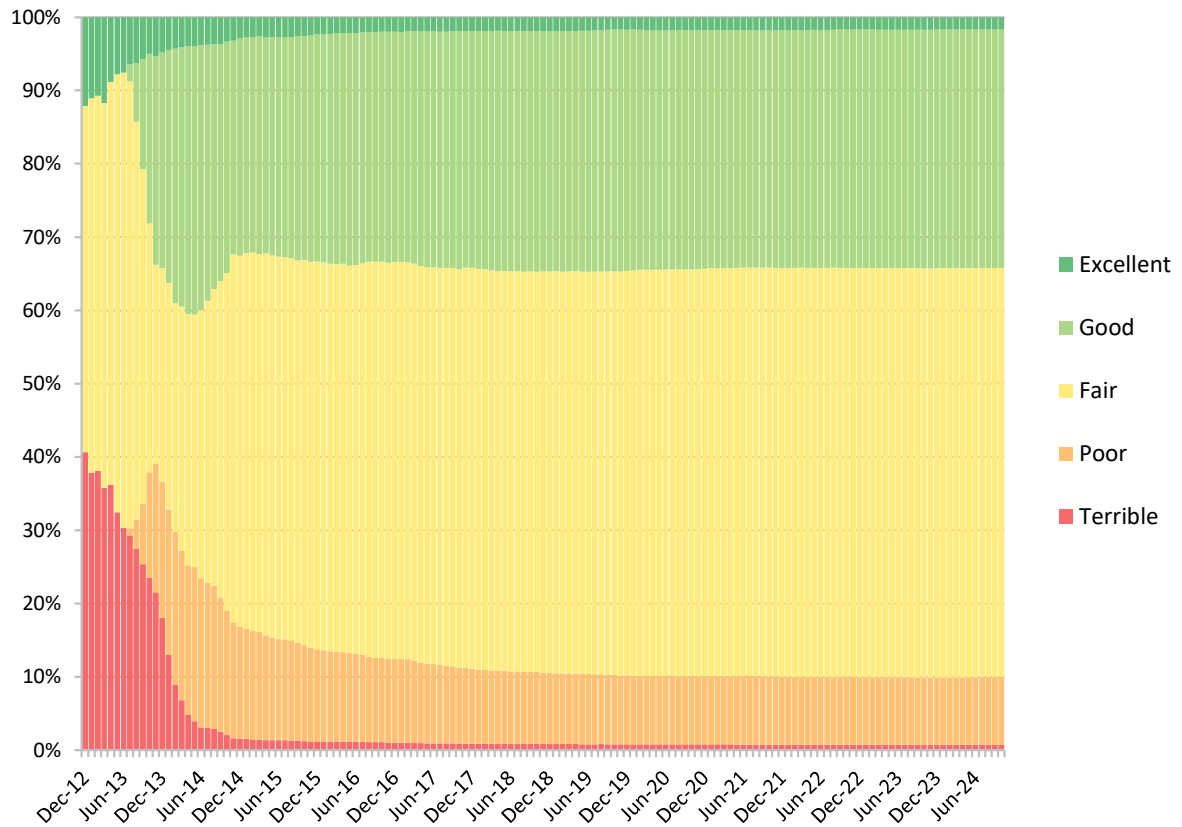

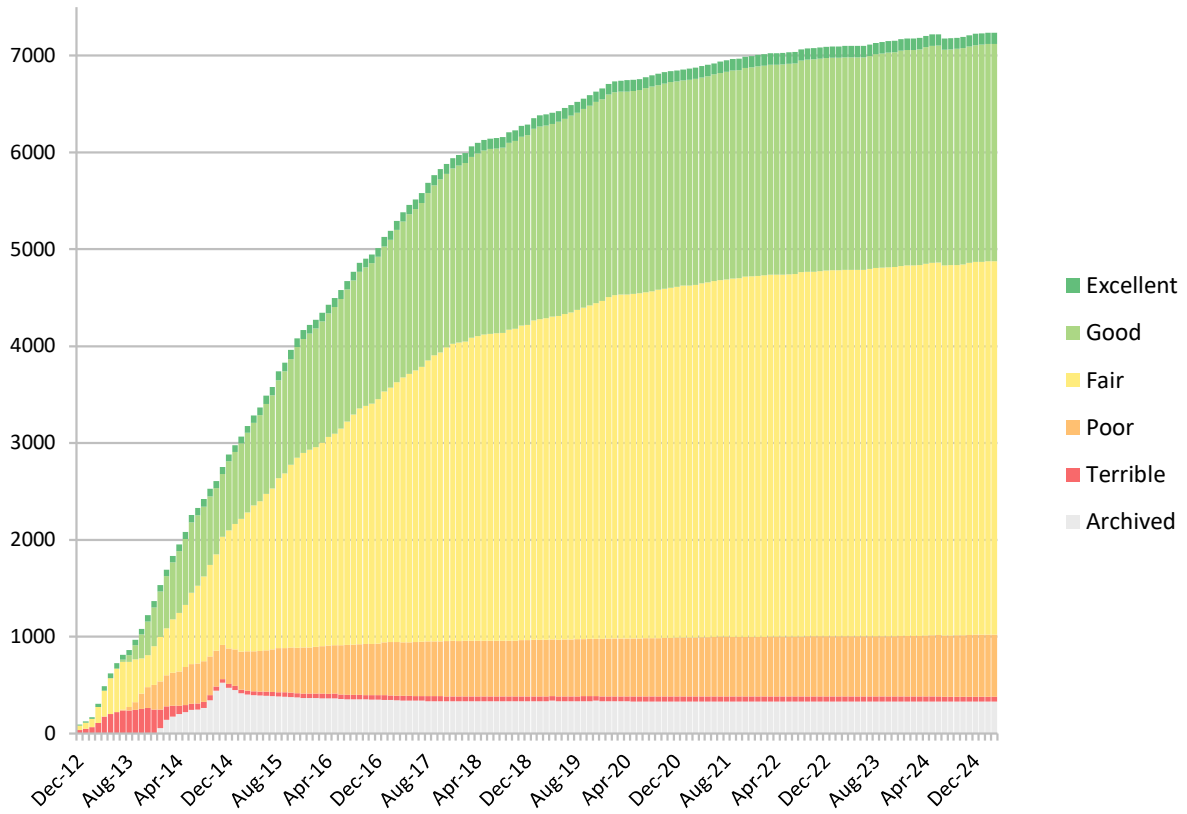

You can reach me at [bankbryan.com](http://bankbryan.com) on Bluesky with any questions or feedback.

### Rating scale and descriptions

Excellent	Delicious, strongly recommended for worldwide consumption
Good	Enjoyable, recommended for consumption
Fair	No strong feelings either way, acceptable if you like the style and nothing better is available
Poor	Not good, only drinkable if you don't pay attention
Terrible	One of the worst beers in the world, strongly advise against human consumption, burn down the brewery

Note: Beverages tasted before the rating current scale was introduced in December 2013 are counted as "Archived" in the Summary section and their rating is grayed out in the Details section.

# Summary

## Details

Last tasted	Rating	Product	Owner (if not independent)
